Find many great new & used options and get the best deals for Paul Was Not a Christian : The Original Message of a Misunderstood Apostle by Pamela M. Eisenbaum (2009, Hardcover) at the best online prices at eBay! Free shipping for many products! Product Information. Pamela Eisenbaum, an expert on early Christianity, reveals the true nature of the historical Paul in Paul Was Not a Christian. She explores the idea of Paul not as the founder of a new Christian religion, but as a devout Jew who believed Jesus was the Christ who would unite Jews and Gentiles and fulfill God's universal plan for humanity. Removing Paul's writings and influence from the New Testament would change the message completely. The reason I ask is that every so often, I have doubts about whether Paul was authentic, or an insidious infiltrator. When I have these doubts, they arise from several points. Saul (his name before his conversion for those few that don't know) hated Christianity. Paul most certainly was not a false apostle. His epistles show he suffered greatly in order to help spread Christianity among the gentiles and, according to tradition, died for it. Maybe he thought that if he got to be an insider with influence, he could corrupt the teachings from the inside? Paul Was Not a Christian: The Original Message of a Misunderstood Apostle.
