Theme by

Technical English is a four-level course for students in technical or vocational education, and for company employees in training at work. It covers the core language and skills that students need to communicate successfully in all technical and industrial specialisations. Technical concepts are clearly presented using motivating texts and clear illustrations. Topics reflect the latest developments in technology and are relevant to student's needs. The course uses core language common to a range of specialisations. Grammar is regularly practised and there is a comprehensive grammar summary. Technical English is a four-level course for students in technical or vocational education, and for company employees in training at work. It covers the core language and skills that students need to communicate successfully in all technical and industrial specialisations.
