A Book Review of The Woman Reader, by Belinda Jack. October 2016. Pauline Dirven. New Zealand has a shorter human history than any other country. Short, yes, but the amount of change this country experienced was pretty phenomenal. It all started with the Maori. Using awesome navigational skills to make their way from a Polynesian island they called Hawaiki to Aotearoa (New Zealand), they migrated to New Zealand in the 1300s.  The Europeans didn’t know New Zealand even existed until 1642. As the Europeans had a tendency to document everything, they brought another aspect to how Maori history was told. In fact, the word “Maori” itself signifies the change the Europeans brought on Maori life. Before, there was no collective word for the various tribes in New Zealand. Hunting book.
