This summer reading program focuses on building phonemic awareness, reading fluency, comprehension, and improving the ability to decode and encode words. We work on visualization, note taking, critical thinking, and more. When you take a holistic approach to reading, you can dramatically improve your reading skills not just in school, but in life. Reading Fluency. Improving fluency is one of the most important things you can do to improve reading skills. At first glance, parents seem aware of the importance of summer reading, as 94% agree reading over the summer can help their child during the school year. And yet, nearly half of parents with school-age children are unaware of the "summer slide" (47%), the loss of academic skills that occurs when school is not in session and which is attributed largely to the lack of reading. This is of critical importance as the effects of the summer slide are cumulative. Reading Rockets has packed a "virtual beach bag" of activities for teachers to help families get ready for summer and to launch students to fun, enriching summertime experiences. Educators will find materials to download and distribute as well as ideas and resources to offer to students and parents to help ensure summer learning gain rather than loss. Summer Reading Loss. Do you spend most of the fall reviewing what was taught last spring? The Summer Reading Challenge, presented by The Reading Agency and funded by Arts Council England, encourages children aged 4 to 11 to set themselves a reading challenge to help prevent the summer reading 'dip'. Each year the Challenge, delivered with the support of public libraries, motivates over 700,000 children to keep reading to build their skills and confidence. This year, Silly Squad, the Summer Reading Challenge 2020, will celebrate funny books, happiness and laughter.
