British Empire - a former empire consisting of Great Britain and all the territories under its control; reached its greatest extent at the end of World War I; it included the British Isles, British West Indies, Canada, British Guiana; British West Africa, British East Africa, India, Australia, New Zealand; “the sun never sets on the British Empire”. Collins German Dictionary – Complete and Unabridged 7th Edition 2005. Another book on the history of the British Empire, then, may ostensibly seem unwarranted, but Lineages of Empire makes a compelling contribution, not only to British history, but also to our understanding of the complicated intellectual inheritances of European and U.S. Lineages of Empire: The Historical Roots of British Imperial Thought. Dictionary browser ? The British Empire comprised the dominions, colonies, protectorates, mandates, and other territories ruled or administered by the United Kingdom and its predecessor states. It originated with the overseas possessions and trading posts established by England between the late 16th and early 18th centuries. At its height, it was the largest empire in history and, for over a century, was the foremost global power. By 1913, the British Empire held sway over 412 million people, 23% of the world population. Get this from a library! Historical dictionary of the British empire. [James Stuart Olson; Robert Shadle] It includes entries on the colonies, the people who played a role in the empire, the wars affecting the empire and the major events in its history.
