Reseña: To assist law enforcement and parents in identifying and addressing gang crime, the COPS Office has developed a variety of tools and resources including Strategies to Address Gang Crime: A Guidebook for Local Law Enforcement. Author Scott H. Decker, PhD provides information about developing and enhancing local law enforcement responses to gangs in their jurisdictions. The focus of the guidebook is on the use of problem-solving strategies to help agencies select the interventions most appropriate for their jurisdictions. In particular, the guidebook describes the SARA model (Scanning, Analysis, Response and Assessment), a strategic problem-solving process with which local law enforcement is familiar and can apply to its local gang problem. This is the must-have resource to help law enforcement understanding the factors that contribute to their gang problem and select appropriate responses.

This comprehensive plan to combat gangs and gang violence also recognizes the critical need of state and local law enforcement and local community groups to continue to work hand in hand on the front lines in the war against gang violence. Although this report focuses on Justice Department efforts, combating gang violence is an Administration priority. Local governments and law enforcement agencies that shun involvement in immigration law enforcement are missing an opportunity to protect their communities from criminal immigrant gang activity. 7 The most significant increases were for crimes often associated with gang activity, such as homicide, robbery, and aggravated assault. Immigrant and Transnational Gangs. While many of these gangs dissipated after years of law enforcement efforts and assimilation, a resurgence of gang activity began in the 1980s, when law enforcement activity targeted at gangs (and illegal immigration) was abating just as illegal immigration was increasing. PDF | Traditional law enforcement agencies tend to plan for short term solutions to existing problems that have already occurred. Management is thus | Find, read and cite all the research you need on ResearchGate. need. to be formulated to address. problems. that can be. This is research being conducted for the National Gang Crime Research Center on Russian Organized Crime. The structure, scope and operations of ROC operations are being examined. View project.
